

## Lanterna Tutorial

This lesson shows how to create a lantern style pendant using a fluted rondelle bead, a little copper wire, and some basic tools. This tutorial is designed with the beginning wire artist in mind. I have step by step instructions with plenty of photos and a gallery at the end of the tutorial to get you inspired to design your own lantern pendant. Tutorial is 53 pages, has almost 70 steps, and over 75 photos! Very detailed! This tutorial also has a short tut of the wire wrapped loop. Perfect if you have been wanting to learn that as well! PLUS the love knot head pin tutorial is also included!
