

Drops of Honey Hoop Earrings: Wire & Jewelry Making Tutorial Series T169

Hoop earrings never go out of style. Learn to make one for yourself and look as sweet as honey with Drops of Honey Hoop Earrings! Drops of Honey Hoop Earrings tutorial will teach you how to create your own hoop earrings using simple wirework techniques. Wire wrapping is a popular wirework technique and this tutorial will teach you how to wire wrap with seed beads. With this particular design, it gives the freedom to choose how many seed beads you'd like to string and wrap. In creating the earrings there is no specific suggestion as to how many seed beads are needed to string and wrap. You may choose to string as many as you like. The number of seed beads strung will increase the number of wraps and therefore, will create a different variation. The tutorial is catered for beginners or anyone who loves to learn this wirework technique. It has in-depth instructions and ultra-clear, close-up photos at each step. Additionally, you can ask me question you have on the tutorial. No more getting stuck and frustrated on a confusing or just plain inaccurate pattern.
