

Hands and Feats of Clay: A comic book featuring sculpted characters (Hands and Feats of Clay: A paperback comic book) (Volume 1)

Hands and feats of clay is a sort of comic book featuring a series of visual gags. The gags consist of photographs with humorous captions. Each photograph depicts an animal character made from modeling material such as polymer clay, non-hardening clay and bakers clay. Bakers clay is a mixture of flour, salt and water. A variation of bakers clay substitutes corn starch and baking soda for the flour and salt. All characters depicted in this book are from the authors imagination.
