

Color for the Decorative Painter

What color should I use? That's the question decorative painters ask themselves every day. With this guide, they'll have the right answer every time. Color for the Decorative Painter makes using color simple. Starting with the basic color wheel that shows how colors relate and react to one another, readers will learn how to achieve the effects they want, from the quiet serenity of a landscape to the vibrant beauty of freshly cut flowers. Best of all, this book is as fun as it is instructional, featuring ten step-by-step projects that illustrate color principles in action. As readers paint their favorite subjects, be they flowers, fruit or birds, they'll learn how to make color work the way they want it to. No second-guessing or regrets - just great looking paintings and a whole lot of pleasure.
