

The Abyss That Laughs at Creation

The Abyss That Laughs At Creation is an illuminated book. I had the privilege to see some of William Blakes original books in the John Rylands Library in Manchester last year. We live in time of crisis, change, revolution and uncertainty, as did Blake. Abyss is inspired by my heros: Alan Moore, Alan Garner, Susan Cooper, Montaigne, PKD, Massive Attack, John Foxx, Dylan, Goya, Joy Division, Hoffer, Spencer, Nietzsche, JGB, Camus, Jean Grenier, Norman Maclean, JKR, and many others. The central character is John Walsh, no it isnt, the central character is the Will to Negation... To misquote Neil Young, a little part of it in everyone.
