

Funny-HAHAS

Funnyhahas is a collection of new comic strips and surreal illustrations created by the unique imagination of Ted Gudlat. Crocodiles, horses, and space punks feel paranoid in suburbia, get tattoos, run out of beer and generally create a trippy universe. Lurking behind their insane and vulgar shenanigans is a rich infomercial tycoon, who is in cahoots with money-hungry aliens, who is planning to brainwash the town and milk them for everything they are worth (basically nothing). These foul yet hilarious creations are perfect for reading while eating cornfalkes or while on the john.
