

Red Diaries #2

The investigative team searches for clues about a mysterious mans claim that the Red Diaries kept by Marilyn Monroe revealed secrets that would lead not only to her murderer, but the truth behind the assassination of President John F. Kennedy. Even though skeptical, the investigators find out that the matter is much more serious and deadlier than they ever expected, even after all this time. Gary Reed delivers a fast paced yarn that dovetails into the whole conspiracy theory of the assassination of President Kennedy and neatly intertwines it with the so-called suicide of Marilyn Monroe. An excellent job of weaving the different theories in and out of an investigation and providing readers with the everything they need to know. This may be a comic but it deserves a spot on anyones mystery section of their bookcases. - Julia Mayfield, BOOKWORLD ONLINE
