

## The Rochdale Poltergeist [Japanese Edition]

Up to that point, I was quite happy to be interested in the paranormal because I really hadn't experienced much. Until I did. And then I was thinking, Oh God, do I really want to continue with this? - Steve Mera BSc. Director: The Scientific Establishment of Parapsychology Steve Mera had been investigating paranormal phenomena for many years, and had never seen anything that shook him to his very foundations. All that changed in 1996, when he was called in with his team to look into the bizarre occurrences taking place at a small bungalow in Rochdale, Manchester, England. Flying objects, disembodied voices, phantom smells and sounds, and strangest of all, copious falls of water seemingly coming from nowhere plagued the Gardner family for nearly a year. What Steve experienced during the investigation was enough to make him question his entire career path, and remains one of only a handful of cases that he is completely unable to rationally explain. This account, written by horror author Jenny Ashford from interviews conducted with Steve about the case, is a bone-chilling foray into the paranormal that will make even the most ardent skeptic sleep with the lights on.
