

Living a Lie

Lately, hed been going by the name Randolph James, of course this wasnt his real name, but he made it work. Looking into the full-length mirror in his bedroom, he forced his body to stand erect, checked his stance, and prepared to be Mr. Randolph James one more time. Living a Lie is a serialized near-future science fiction story about a man born to a mentally ill, homeless mother who has hidden his true identity and background during his quest for upward mobility. The lie hes been living threatens to unravel when he begins to discover that his mothers symptoms were not signs of the onset of schizophrenia... but of the onset of superhuman powers, powers that seem to be hereditary.
